

Hi, I'm Anna Abramowicz

Front-End Developer

I strive to explore the most optimal solutions from a wide range of technologies rather than limiting myself to one. As a passionate Front-End enthusiast, I focus on building modern, intuitive applications using React, TypeScript, Redux, HTML, CSS, and Next.js. My professional experience has honed my analytical thinking, teamwork skills, and ability to deliver projects using agile methodologies. Currently, I am enhancing my expertise through personal projects and continuous learning.
